EXCELLENCE FROM TRADITION.

LEGACY FROM INNOVATION.

For more than half a century, Cultured Stone® has produced premium manufactured stone veneer, created by the finest master craftsman. As we embrace the strong practices of excellence and artistry that define our heritage, we look ahead to create solutions that offer greater flexibility in design, meeting the design needs of today, and tomorrow.

Eleanor Roosevelt once said, “The future belongs to those who believe in the beauty of their dreams.” We believe in offering products that help you achieve your dreams, beautifully.

You are not just a building professional, and these are not just products. You are a visionary, and these are the tools with which you are able to shape your future. Bring incomparable design to reality through the finest manufactured stone veneer available in the industry. The past has shaped us, but the future is ours to define.

A FIRST IMPRESSION
SET IN STONE.

Remember how you felt the first time you walked into your dream home? That excitement and pride never goes away when you enhance the exterior of your home with our Cultured Stone veneers. Whether pulling into your driveway or catching a parting glimpse in the rearview mirror, the character and charm of a Cultured Stone exterior makes a bold and lasting impression. Realtors call it "curb appeal." You’ll call it utter perfection.
The product colors you see are as accurate as current photography and printing techniques allow. We suggest you look at product samples before you select colors.
The menu of color choices in our Country Ledgestone and Southern Ledgestone textures were made to pair beautifully with our Dressed Fieldstone. The resulting blends—in whatever proportion you deem perfect—create something truly enticing that accentuates any setting or surface. Better still, they were all thoughtfully designed to complement everything from stucco and brick to wood and vinyl.

While our gorgeous Cultured Stone veneers tend to be the center of attention, it’s often the grouting styles in between that can really make a difference. Creating the right mortar joint for a project is a matter of choosing not only the perfect color, but also the right width—a choice that naturally affects the total square footage. And while a standard mortar joint is typically 1/2” in width, some stone textures allow for a dry stacked, tight-fitted joint to achieve a clean, tailored appearance.

A PAST REMEMBERED.

A FUTURE IMAGINED.

Historically, artisan stonework has been used to dramatically define indoor settings—from prominent stacked-stone hearths to meticulously crafted mosaic floors. With Cultured Stone veneers, an exciting new era comes to life inside the home with cleverly designed interior creations that transform simple backsplashes, accent walls, columns and fireplaces into stunning works of timeless art.

FALL IN LOVE WITH OUTDOOR LIVING.

If home is where the heart is, your outdoor space is where the real love affair is waiting to unfold. Think of it — a canvas of possibilities waiting to be designed and enjoyed with a gorgeous stone fireplace, a dramatic fountain or even an entire outdoor room. With Cultured Stone veneers serving as the backdrop, even the simplest outdoor activities become unforgettable moments all day long and deep into a moonlit night.

CREATING THE
ULTIMATE
IMPULSE BUY.

Today’s savvy consumer wants more than a product when they’re out shopping—they also want a memorable experience. With Cultured Stone veneers, a storefront, restaurant or hotel is sending a subtle but significant message about what their patrons can expect the moment they step inside. From chic and sophisticated to warm and inviting, Cultured Stone exteriors communicate just how special the interior experience will be.
CULTURED TRANSITIONS™

PERFECTION IS IN THE DETAILS.

Cultured Transitions, the new home for our ever-evolving collection of unique trim and accessories, adds even more beauty and functionality to the home or business. Everything you need to complete each project is in one convenient collection. From unique capstones and trim to elegant electrical boxes, our selection of timeless accents will add both style and protection to any commercial or residential façade.

### STONE VENEER DIMENSIONS®

*These are all nominal dimensions and ranges. Actual dimensions may vary.

---

**Source Guide 45**
We strive to meet today’s building needs without compromising the future. Cultured Stone veneers are designed to not only beautify spaces but also take care of our shared environment along the way. To that end, our closed-loop recycling system allows us to reuse water during manufacturing, which proves especially important in California’s drought-prone environment. Cultured Stone veneer products contain an average of 58% recycled content.
While the heart of Cultured Stone operations can be found in Roswell, Georgia, the lungs that breathe life into our work can be found in our two plants. Strategic locations in Napa, California, and Chester, South Carolina, have allowed us to create one of the largest distribution footprints in the US and Canada and globally into Europe, Asia and Australia. For the builders who rely on easy access to our materials, this convenient presence provides an invaluable resource.

The skilled hands of our masters at both plants make it possible for Cultured Stone to offer quality stone products that are proudly made in America.
WARRANTY

50-YEAR TRANSFERRABLE EXPRESS LIMITED WARRANTY

Cultured Stone® manufactured stone veneer products carry a 50-year transferrable express limited warranty subject to the terms of the warranty. The warranty is limited, in manufacturer’s sole discretion, to either (i) repair or replacement of covered, nonconforming products or (ii) a refund of the price paid for such products. Labor costs for removal or installation of such products are not covered under the warranty. The warranty may be transferred to subsequent purchasers of the applicable home or building subject to the transferability and coverage terms set forth within the warranty.

Complete warranty information is available on request.

INSTALLATION

Cultured Stone veneer can be used on most structurally sound wall surfaces. It is light weight and quick adhesion allows for fast, easy installation without additional footings or wall ties. Each piece of Cultured Stone veneer is applied individually with Type N or Type S mortar and attaches permanently to the wall surface.

BE SURE TO READ THE CULTURED STONE FULL DETAILED INSTALLATION INSTRUCTIONS. GET A COPY FROM YOUR CULTURED STONE® DEALER, AT WWW.CULTUREDSTONE.COM OR BY CALLING 1.800.255.1727.

THE NATIONAL CONCRETE MASONRY ASSOCIATION OFFERS A WEALTH OF INFORMATION AT WWW.MASONRYVENEER.COM.

TECHNICAL DATA

Cultured Stone products are engineered to meet or exceed the specifications set by building code officials.

Unit Weight is approximately 8-12 lb/ft² (39-58 kg/m²) but not more than 15 lb/ft² (72 kg/m²)

Thickness 1 3/4" average. May vary depending on choice of texture.

Colorfast Colors become an integral part of the stone during casting. Existing applications show no undesirable change in color after years of weathering.

Noncombustible/Surface Burning Characteristics UL tested and listed. Cultured Stone products tested out with zero flame spread, zero smoke development.

Technical Support Complete copies of Cultured Stone research reports, approvals, tests, listings or acceptances conducted by independent testing agencies are available on request. Cultured Stone products meet or exceed all ICC-ES Acceptance Criteria #51, requirements for pre-case stone veneer.

Other manufacturers who claim to produce equivalent products should be asked to provide documentation of claims.

MAINTENANCE

Cultured Stone and Cultured Brick veneers are virtually maintenance-free. If required, lightly wash to remove dust or dirt. Do not sandblast or wash with acid, abrasives or hi-pressure water. Damaged or graffiti-marred stones can be removed and replaced with matching materials.

*See actual warranty at www.culturedstone.com. Overhead, horizontal or sloped applications are not included in our building code evaluation reports or acceptances. These applications often require special approval/inspections by local building inspectors. Contact your architect or engineer for assistance designing these installations.
Architects have leaned on us for many years to help fulfill their vision for their customer; time and time again, we get that done with Cultured Stone®.

Doug McCall, OldecastleCoastal, Tampa, FL

"We are over 115 years old and the oldest brick and block manufacturer in the Pacific Northwest. Cultured Stone is a great addition to our product line. We have been partners for 35 years."

Bill Houlihan, Jr., Mutual Materials, Bellevue, WA

"Cultured Stone prides itself on the manufacturing process, the coloring process."

Nick Ridge, Mason Steel, Cleveland, OH
Born from great partnerships, Cultured Stone is a family affair. Rooted in our commitment to quality, a long-standing history of working closely with distributing partners, developing new products, textures and colors together - from the Southeast to the Pacific Northwest, we are Cultured Stone.

Gordon Strout, Instone, Millstone Township, NJ

"We were part of the growth of an industry. When we started, there was not even a product category for manufactured stone, and now it’s fully established."
Keith Polster, Mason Steel, Cleveland, OH
From cast to model, the entire Cultured Stone veneer production process is very much hands-on—down to the trademark CSV® (Cultured Stone Veneer) stamp that has been hand-applied since 1962, to each and every stone we craft. Only genuine Cultured Stone products have a CSV® indicia embossed on the edge, guaranteeing that you’re getting the original, proven and preferred brand. After all, a master’s touch is all in the detail.
