CULTURED
STONE™
AWAKEN YOUR SURROUNDINGS™

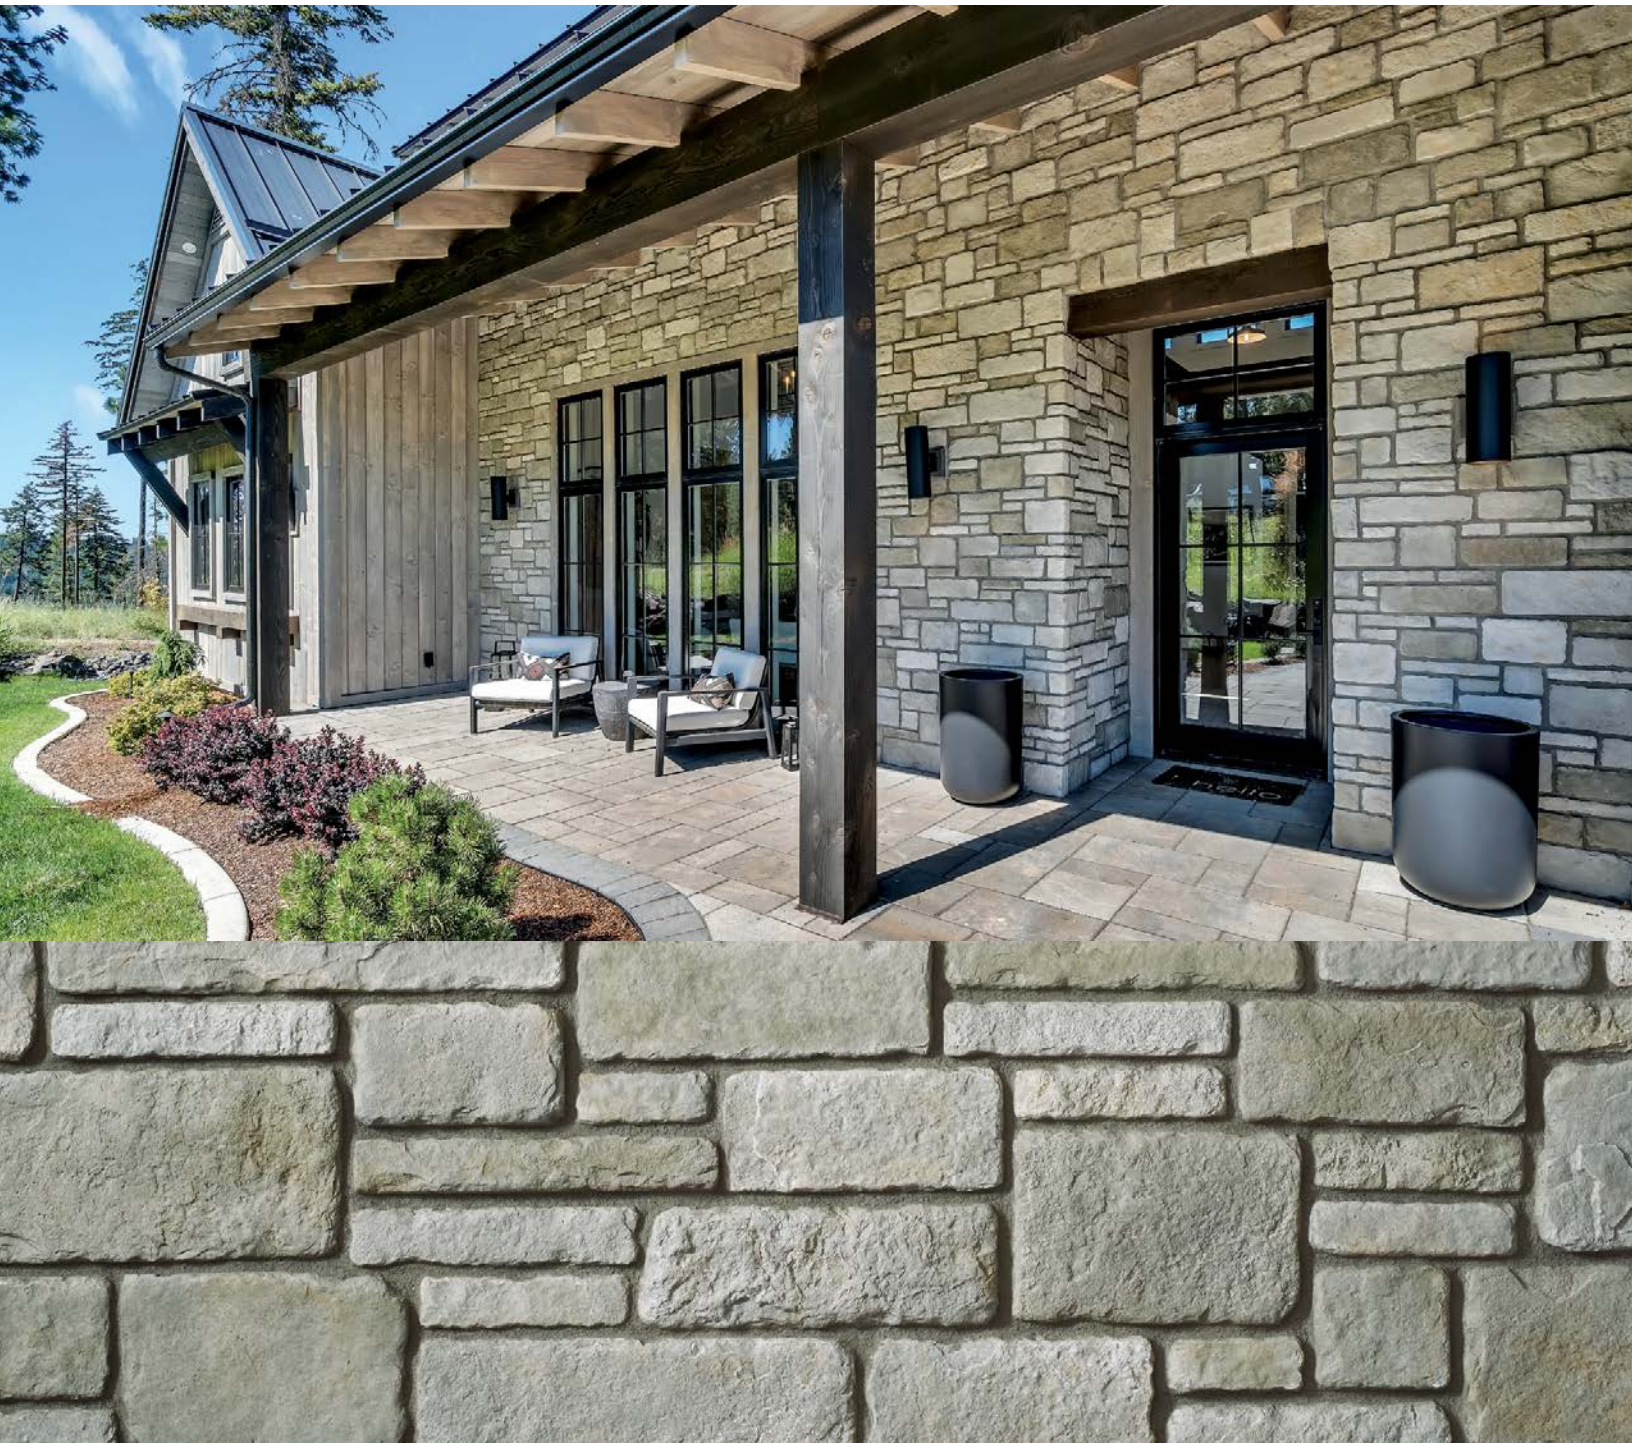

No surroundings should go unshaped by **imagination** or untouched by **emotion**.

Exceptional spaces not only satisfy our needs, they respond to our deepest desires. To this end, Cultured Stone® encourages all to dream, explore and ask: What **inspires** this vision? What **feeling** is called for? Which textures, shapes and hues are authentic to this creative concept? The answers will come with **discernment**—surely among them, the industry’s finest architectural stone veneer, unsurpassed for aesthetics, quality and care. With its extraordinary possibilities and planet-sensitive production, Cultured Stone both elevates and cherishes our **surroundings**.

WARRANTY

50-Year Transferable Express Limited Warranty*

Cultured Stone® architectural stone veneer products carry a 50-year transferable express limited warranty subject to the terms of the warranty. The warranty is limited, in manufacturer's sole discretion, to either (i) repair or replacement of covered, nonconforming products or (ii) a refund of the price paid for such products. Labor costs for removal or installation of such products are not covered under the warranty. The warranty may be transferred to subsequent purchasers of the applicable home or building subject to the transferability and coverage terms set forth within the warranty. Complete warranty information is available on request.

** See actual warranty at **CulturedStone.com**. Overhead, horizontal or sloped applications are not included in our building code evaluation reports or acceptances. These applications often require special approval/inspections by local building inspectors. Contact your architect or engineer for assistance with designing these installations.*

INSTALLATION

Cultured Stone veneer can be used on most structurally sound wall surfaces. Its lightweight and quick adhesion allows for fast, easy installation without additional footings or wall ties. Each piece of Cultured Stone veneer is applied individually with Type N, Type S or modified mortar and attaches permanently to the wall surface.

Be sure to read the full, detailed Cultured Stone installation instructions. Get a copy from your Cultured Stone dealer at **CulturedStone.com** or by calling (800) 255-1727.

Concrete Masonry and Hardscapes Association offers a wealth of information at **cmha.org**.

RESOURCES

MAINTENANCE

Cultured Stone and Cultured Brick® veneers are virtually maintenance free. If required, lightly wash to remove dust or dirt. Do not sandblast or wash with acid, abrasives or high-pressure water. Damaged or graffiti-marred stones can be removed and replaced with matching materials.

TECHNICAL DATA

Cultured Stone products are engineered to meet or exceed the specifications set by building code officials.

- Unit Weight**
Approximately 8–12 lbs/ft² (39–58 kg/m²) but not more than 15 lbs/ft² (72 kg/m²).
- Thickness**
Thickness averages 1¾". May vary depending on choice of texture.
- Colorfast**
Colors become an integral part of the stone during casting. Existing applications show no undesirable change in color after years of weathering.
- Noncombustible/Surface Burning Characteristics**
UL tested and listed. Cultured Stone products tested out with zero flame spread and zero smoke development.
- Technical Support**
Complete copies of Cultured Stone research reports, approvals, tests, listings or acceptances conducted by independent testing agencies are available on request. Cultured Stone products meet or exceed all *ICC-ES Acceptance Criteria #51* requirements for precase stone veneer.

Other manufacturers who claim to produce equivalent products should be asked to provide documentation of claims.

PROTECTING OUR SURROUNDINGS

We strive to meet today's building needs without compromising the future. Cultured Stone veneers are designed to not only beautify spaces but also take care of our shared environment along the way. To that end, our closed-loop recycling system allows us to reuse water during manufacturing, which proves especially important in California's drought-prone environment. Cultured Stone veneer products contain an average of 58% recycled content.

FROM COAST TO COAST (AND EVERYWHERE IN BETWEEN)

The skilled hands that craft our work can be found in our two plants, strategically located in Napa, California, and Holmesville, Ohio. This has allowed us to create one of the largest distribution footprints in the U.S. and Canada with the capacity to reach globally into other markets. For the builders who rely on easy access to our materials, this convenient presence provides an invaluable resource. Masters at both plants make it possible for Cultured Stone to offer quality stone products that are proudly made in the U.S.

WE PUT OUR MASTERS' STAMP ON EVERY STONE

From cast to model, the entire Cultured Stone veneer production process is very much hands-on — down to the trademark C.S.V.® (Cultured Stone Veneer) stamp that has been hand-applied to each and every stone we craft since 1962. Only genuine Cultured Stone products have a C.S.V. indicia embossed on the edge, guaranteeing that you're getting the original, proven and preferred brand. After all, a master's touch is all in the detail.

AWAKEN YOUR SURROUNDINGS™

Explore the endless possibilities of building with Cultured Stone veneer products by visiting our website at [CulturedStone.com](https://www.CulturedStone.com). For more detailed information, please call (800) 255-1727. For continual inspiration, follow us on social.
