

# FIRE PIT COLLECTIVE

VERSATILITY BY DESIGN.  
*FUELED BY CHOICE.*

Introducing the versatile Fire Pit Collective\* from Aura Natural Landscapes.

Offered in two distinct profiles, **ROUND** and **SQUARE**, each collective is designed to integrate seamlessly into a range of outdoor settings.

Every piece highlights the natural texture, variation, and durability of natural stone, bringing warmth and authenticity to the space it anchors.

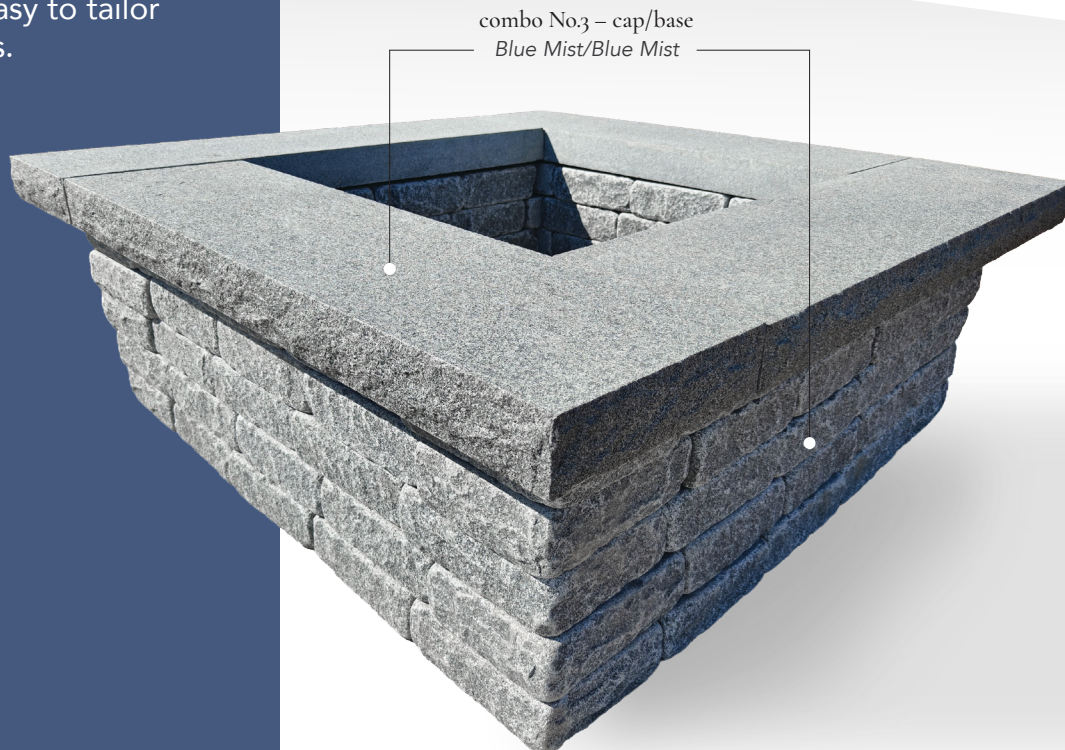

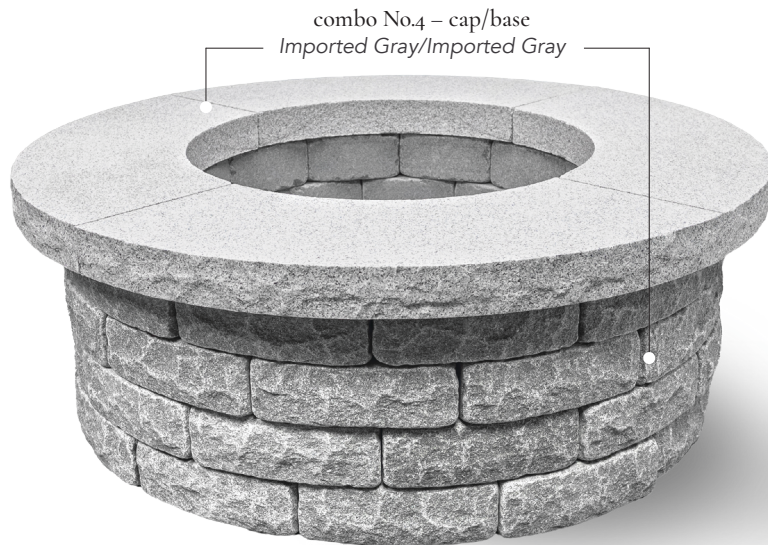

**Each collective is available in two natural stone colors and four cap-and-base combinations.** Maintain a unified palette for a seamless aesthetic, or contrast the tones to create depth and visual dimension. This flexible system makes it easy to tailor each fire pit to its surroundings.

\*Part of a complete system – required components listed on reverse.
